Ricoh
Outstanding Achievement in Innovation for
Ricoh Intelligent Scanning

Ricoh Intelligent Devices: Scalable. Secure. Sustainable. Simple.

With our new intelligent devices, you can benefit from the outstanding quality, reliability and security that you can expect from Ricoh, plus on-demand access to the latest technology.

Forget the days of buying a new device every time you want access to updated technology. With Ricoh's new Intelligent Devices you will be able to access the latest technology through updates made directly to the device as you need them – so its capabilities can grow as your business does. Download the latest features, upgrades and applications as you need them, to keep your device up to date and ready to meet your business needs – now and in the future.

Work-flow Efficiency

You can tailor settings for individual users for quick access to apps which are used more often. The new small sized paper scanning units allow you to scan smaller documents much more conveniently, and the expanded paper tray capacity allows you to work more efficiently. Automatic firmware upgrades ensure that your devices are at maximum security so you can have peace of mind.

Smart Support when you need it

Our range of intelligent devices come fitted with a 10.1" Smart Operation Panel designed to enhance your productivity and mobility. Experience a user interface that offers fast and simple navigation with the ability to customise the layout to best suit your needs - even by adding your own company branding. Access device features, move between jobs and tasks quickly and conveniently enabling teams to work smarter.

Ease of Use

Quick access to Web Help Tools via RICOH Intelligent Support help customers to complete simple tasks like toner replacement quickly and easily. Our consistent user interface across your Ricoh fleet provides an optimal and familiar experience everywhere and anywhere. Other than RICOH native applications in our intelligent devices, we have also collaborated with third party solutions to optimize your document management workflow.

Technology that grows with your Business

Simply add software solutions, applications and cloud services as you need them to optimise your document management workflows and help your employees work faster, smarter and more securely. RICOH Always Current Technology allows new features, applications and upgrades to be downloaded and installed directly to your device on request. No need to call a technician or wait until end of a contract. Easy. Scalable. Customisable.

66% of business leaders believe they will fall behind competitors if they don't invest in new printing technology²

"You can connect your RICOH Intelligent Device to external cloud services and third-party apps with Ricoh workflow applications. Convert paper-based information to digital by scanning directly to services such as DropBox™ or Sharepoint™, or scan direct to folders on your corporate network. Get quick access to a range of 'scan-to' functionality as new services become available."

Rely on Outstanding Built-in Security

Ricoh enables secure access to data whilst ensuring that security features and products do not hinder business innovation, functionality or productivity – so you can get on with the job, knowing your data is safe.

Ricoh helps protect your business data throughout its entire lifecycle – from solutions such as user authentication which prevents sensitive documents from being viewed, copied or sent by unauthorised users, to hard drive surrender services for the device at its end of life. Ricoh's DataOverwriteSecurity System (DOSS) is designed to overwrite the areas of the hard drive used for image processing after each printing, copy, scan or fax job.

Minimise your Business' Carbon Footprint

When you partner with Ricoh, you are making an environmentally sound choice thanks to our deep and enduring commitment to minimising the environmental impact of our devices and workflow. RICOH Intelligent Devices have one of the lowest energy consumption levels in the industry, both in Typical Electricity Consumption (TEC) and actual power consumption. Default Auto Off timer setting lowers power consumption, running costs and carbon footprint when the device is not active – while a quick recovery time makes sure there is no impact on your productivity.
